

BNP Paribas Securities Services Signs Italian Pension Fund Onto Its Manaos ESG Marketplace

BNP Paribas Securities Services today announces that Fondo di Previdenza Mario Negri, the Italian pension fund, has selected BNP Paribas Securities Services' Manaos platform for its Environmental, Social and Governance (ESG) data and analytics needs.

Fondo di Previdenza Mario Negri is the pension fund for managers of commercial and shipping and transport companies in Italy, holding EUR 3.9 billion in assets under management. The company will be using BNP Paribas Securities Services' Manaos platform to source reliable ESG data and analyse the ESG performance of their investment portfolio.

Manaos, an open servicing platform designed for institutional investors to manage their post-trade investment data, partners with leading sustainability fintechs to give investors ready access to a wide range of ESG data and analytics tools. This means Manaos users can instantly access a wide range of data and analytics services for the production of ESG analytics and regulatory reports.

Now in its second year of operations, Manaos provides its clients with easy access to 10 ESG data and analytics providers, including Clarity AI, Util, Moody's ESG, S&P Global Sustainable 1, Greenomy, which leverages Sustainalytics' data, OWL ESG Inc. and CDP (ex Carbon Disclosure Project), via its 36 apps. As well as helping investors calculate the overall ESG performance of their portfolios, the platform now also gives investors granular cross-provider ESG information on all their underlying funds.

Sébastien Messean, General Manager of Manaos, said: "We are delighted to welcome Mario Negri as a client on our Manaos platform. Sourcing ESG data and analytics tools can be complicated. Investors are looking for choice, flexibility and user-friendly tools and increasingly favouring multi provider models. This makes an 'open-servicing' marketplace model like Manaos a compelling option. The addition of new partners, services and ESG data sets on the Manaos marketplace, coupled with our data management capabilities, demonstrates our commitment to expanding our offering for the benefit of our clients."

Antonella Portalupi, Chairman of the Board of Directors at Mario Negri Pension Fund, stated: "We are very pleased to have signed this agreement which will allow us to promptly monitor the alignment with the ESG criteria of our investment policy and to take the appropriate decisions for the future for a correct balance between financial risks and socio-environmental impact"

About BNP Paribas Securities Services (www.securities.bnpparibas.com)

BNP Paribas Securities Services, a wholly owned subsidiary of the BNP Paribas Group, is a leading global custodian and securities services provider. Backed by the strength of the BNP Paribas Group, we provide multi-asset post-trade and asset servicing solutions for buy and sell-side market participants, corporates and issuers. With a global reach covering 90+ markets, our network is one of the most extensive in the industry, enabling clients to maximise their investment opportunities worldwide.

About Manaos (manaos.com)

Developed for the asset management industry by AELX SAS, a technology subsidiary of BNP Paribas Securities Services, Manaos provides a swift and easy connection between investors, asset managers, and a panel of carefully-selected fintechs and regtechs. This facilitates fund inventory collection and data standardisation and allows users to look through their portfolios for full transparency on their investments. Manaos operates according to bank-level, industry security standards.
